IMPORTANT NOTICE!

May 16, 2018

Dear Resident:

Air Compressor Engineering, contracted by the Town, will be replacing check valves in the Brookmont Booster Station on May 22nd and 23rd, 2018, between the hours of 8 a.m – 2 p.m. Anticipate your water to be turned off during that time frame.

Once the water is turned back on, you may experience discoloration which should be short lived. Check any aerators or screens on faucets or washing machines for sediment once the discoloration is gone. The water pressure will return to normal once the work is completed.

If you have any questions or concerns regarding this project, please contact me at 596-2826, 413-333-7149 or 596-2800 ext. 208.

Thank you for your cooperation,

Vinnie Pafumi
